

Dear ACPELIA team,

Recently, the ACSFJC organization had the privilege of sending four of our youth workers to participate in the RESPECTRUM project in Cyprus that you organized. The team, consisting of two women and two men, embarked on this journey with the objective of acquiring novel approaches essential in debunking myths surrounding sexual education for the youth.

What we didn't anticipate was the profound personal transformation they would undergo. During the PDA, our youth workers underwent a journey of self-discovery, learning first to embrace themselves in order to more effectively meet the needs of the young individuals they serve. Beyond this personal growth and shift in perspective, they also acquired and cultivated innovative methodologies. These newfound techniques have since been adeptly applied within our community.

Subsequent to the PDA and armed with the knowledge they gained, our youth workers have elevated the discourse on sexual education in our community. They successfully hosted two information workshops targeting fellow youth and youth workers. The positive reception of these workshops is especially notable given the often taboo nature of sexual education in Romania.

We are deeply grateful to have been a part of this transformative project. Not only did it enrich our community, but it also catalyzed a profound and positive metamorphosis in our youth workers.

Our heartfelt thanks to ACPELIA for affording us this opportunity and for the enlightening methodology you introduced.

Warm regards,

Hilitanu Constantin Catalin

President of

ACSFJC Organization
